

Lab#5

Use your favourite browser for this part of the lab.

You can access an Xpath Expression testbed at the following URL:

<http://www.whitebeam.org/library/guide/TechNotes/xpathtestbed.rhtm>

Load the file itunes-feed.xml (on the web site) as a source file in the Xpath Expression Testbed.

Formulate the following queries in Xpath:

1. What is the duration of the item whose title is “Shake Shake Your Spices”
2. What are the titles of the items where John Doe is author
3. What are the titles of the item that have John Doe as itunes owner
4. How many items does the document contain whose author is John Doe
5. Give the concatenation of all the summaries in the document
