Foreword

This volume contains the papers presented at the ACM SIGPLAN Workshop on Partial Evaluation and Semantics-Based Program Manipulation (PEPM'94) held on June 25, 1994 at Walt Disney World Village, Orlando, Florida.

The program committee received 45 submissions, from which it selected 13 papers for presentation. A total of 150 referee reports were written. The quality of submitted papers was generally very high, and several papers of workshop standard had to be rejected because of the limited duration of the workshop.

We wish to thank the program committee members and the following referees for their assistance: Lars Ole Andersen, Peter Holst Andersen, Lars Birkedal, Morten V. Christiansen, Olivier Danvy, Robert Glück, Fergus Henderson, Fritz Henglein, Jesper Jørgensen, Kim Marriott, Torben Mogensen, Lee Naish, Kristian Nielsen, Jakob Rehof, David Sands, Siau-Cheng Khoo, Morten Heine Sørensen, Peter Stuckey, Mikkel Thorup, Mads Tofte, Morten Welinder, Michael Winikoff, and David Wright.

We also gratefully acknowledge the support of ACM SIGPLAN. Special thanks go to the local organizers of the SIGPLAN 1994 Summer Conferences, and to Charlie Hughes and Mike Moshell for help with the printing of proceedings.

Peter Sestoft and Harald Søndergaard
PEPM'94 Program Chair

Program Committee

Charles Consel, IRISA, Rennes, France
John Gallagher, Bristol University, UK
John Hannan, Pennsylvania State University, PA, USA
John Hughes, Chalmers University of Technology, Göteborg, Sweden
Neil D. Jones, University of Copenhagen, Denmark
